

In2net Knowledgebase

How do I log into my VPS Admin Control Panel?

1. Access your In2Net VPS Control Panel login page at: <https://pbas1.in2net.net/cp>
2. Enter the email address and the password you have provided when ordering your service.
3. The System Dashboard will be displayed. Your account can be managed using the Account Administration Control Panel standard tools set. The interface is task oriented and you can use the tabs at the top of the page to switch to the needed set of tools.

System. Manage your VPS account for: configure services, manage databases, domains and install/uninstall applications on your server.

My Account. Everything connected with managing your account and subscription: account balance, billing and subscriptions, Control Panel login and password, account settings and display settings.

Upgrade Center. Your system upgrades. You can also upgrade your current VPS Hosting Plan, or purchase a new one.

Help. Useful information about FTP, SSH, or email settings and access to user documentation.
