How do I adjust the server date and time settings?

You can manually set the server date and time through your Virtuozzo Plesk Panel.

To adjust the system date and time settings:

1. Login to your Virtuozzo Plesk Panel.
2. Click on the Settings link.
3. Select System Time.
4. Change the time and date settings as desired, and select your time zone.
5. Click OK.

Note: You will need to restart your Parallels Plesk Panel server for the time zone change to take effect.

To restart your server:

1. Click on the Virtuozzo link.
2. Click on the Restart Container link.
