How do I create a subdomain?

To create a subdomain:

1. Click on the System tab.
2. Select All My Domains.
3. Click on the Add Domain button.
4. Select the Create a subdomain radio. Enter the name of the subdomain you wish to create and check the "Host domain in In2Net Network Inc. DNS" option.
5. Click on the Save button when you are ready.
