

## **In2net Knowledgebase**

### **How do I check my account disk usage?**

You can view disk space usage for your server on the side panel of the Account Admin Control Panel.

1. Click on the Resources Usage. The Resource Usage page will open.
2. Click on the Hard Disk Statistics tab to view the historical values of your system's resources usage and corresponding limits in graphical representation.
3. You can also use the drop down menus on the bottom of the screen to query hard disk usage within a specific range of time.
