

## **In2net Knowledgebase**

### **How do I upload a file to my Container?**

The Parallels Power Panel allows you to upload external files to the Container, up to ten files at a time.

1. Open the Manage Files page by clicking on the File Manager or the Manage Files link.
2. Go to the directory where you wish to upload the file. For example, if you want to upload the file to the /var/www/html directory, click var and then www and finally html.
3. Click on the Upload Files icon.
4. Use the Browse button to locate the file you wish to upload.
5. To upload more files, click on the + icon. You can upload up to 10 files at a time.
6. When you are ready, click the Upload button. The files that you have specified will be uploaded to the designated directory inside the Container.
