

## **In2net Knowledgebase**

### **I want to edit a text file on my Container.**

Parallels Power Panel allow you to edit any text file inside your Container directly through the Parallels Power Panel interface. The Edit File page can be accessed via the File Manager page.

1. Open the File Manager page either via the File Manager link or the Manage File link.
2. Go to the directory that contains the file you need to edit.
3. Click on the Edit icon.
4. Make any necessary changes. When you are ready, click on the Submit button.
