

## **In2net Knowledgebase**

### **How do I create a database?**

To create a database:

1. Login to your Virtuozzo Plesk Panel.
2. Click on the Domains shortcut.
3. Select the domain you wish to create a database for.
4. Click on the Databases icon.
5. Click on the Add New Database icon.
6. Specify the settings for the new database, including name and type. When ready, click on the OK button.
7. Next, click on the Add New Database User icon.
8. Specify the username and password. Click on the OK button to complete the process.
9. You can now login to phpMyAdmin to manage the database.
